

The table below explains what is meant by the terms Gold, Silver, Bronze and Concern for Attitude to Learning.

	<b>Attitude to Learning</b>
<b>GOLD</b>	Gold indicates that a pupil has a very good or excellent attitude to learning in class and always engages with activities by remaining focused throughout the lesson. Behaviour will be very good and all homework will be submitted on time and completed to a very good or excellent standard.
<b>SILVER</b>	Silver indicates that a pupil has a satisfactory or good attitude to learning in class and engages with most of the activities, although there can be occasional lapses in concentration. Behaviour will be good and homework will, in the main, be submitted on time and completed to a good standard.
<b>BRONZE</b>	Bronze indicates that a pupil can engage with learning, although sometimes can lack focus or become distracted. Behaviour will be satisfactory and homework will be completed to a satisfactory level.
<b>CONCERN</b>	A concern indicates that a pupil does not engage in learning, may lack focus in class and may often be distracted. Behaviour may be unsatisfactory and there may be an erratic pattern in relation to the submission and completion of homework.
